Maxima, THE ONE-PRODUCT DISINFECTANT CLEANING SOLUTION

Cleans, disinfects and deodorizes surfaces in one pass. EPA-Registered, hospital-grade, effective against a broad range of pathogenic organisms, including MRSA, HBV and HIV-1 (see back page for complete list). Deodorizes by eliminating the odor at its source.

**Disinfectant Clean plus an Ultimate Deodorizer**

One Maxima product replaces as many as seven products in a facility.

- Unique proprietary disinfectant cleaner
- Mildly acidic, lemon-like pH cleans surfaces better than conventional neutral or alkaline disinfectants

**Maxima Math**

One Product = Seven Products

- Cleans
- Disinfects
- Deodorizes

**Functions**

**Brightwork Cleaner**
Cleans and brightens fixtures — chrome plate, handles, faucets, brushed aluminum and stainless steel. Eliminates the need for specialty bright work cleaners.

**Glass Cleaner**
Cleans windows and mirrors. Its slightly acidic formula is non-filming and cleans without streaking.

**Bowl Cleaner**
Use in place of a non-acid bowl cleaner for daily cleaning. Its lemon-like pH works better than non-acid bowl cleaners. Helps retard the accumulation of hard water lime deposits and urine scale build-up without strong acids.

**Neutralizing Winter Salts**
Mildly acidic cleaner neutralizes and removes salt residue on floors — perfect for eliminating winter tracking.

**Lime & Soap Scum Controller**
Helps control mineral and soap scum deposits on sinks, showers and other hard non-porous surfaces. Recommended for cleaning Hubbard tanks and whirlpool baths.

**Laundry Sanitizer**
Add to final rinse cycle to sanitize laundry such as bedspreads, sheets, pillowcases, diapers, towels and other wet linens. Reduces the growth of bacteria.

Maxima, the seven-in-one disinfectant cleaner, is now also available in a signature fragrance that denotes a hint of a spring floral day — Whispers of Spring. Not overpowering but just right, the subtle spring fragrance lingers as it whispers, “This place is clean”.

Also available in:
- Sassafras – a mild, clean, traditional scent that has been its fragrance signature for the past 20 years
- No Perfume, No Dye – for areas where perfume and/or dye are not desirable

**Smells clean to your Standards**

**Whispers of Spring Fragrance**
The Maxima Family
Hospital-Grade Disinfectant
Maxima is a one-step hospital-grade disinfectant cleaner. Staphylocidal, Pseudomonacidal, Virucidal and Fungicidal. Complies with OSHA’s bloodborne pathogens standard. Use in hospitals and other facilities where controlling the risk of nosocomial infection is of prime importance. EPA registered.
